

KP NCAL PA BARGAINING

UPDATE #10: MAY 30, 2024

On Thursday, May 30, 2024, our bargaining team sat down with management to continue negotiations. This week, we dove deeper into the topics of seniority and job bidding & filling, and discussed job classifications and roles.

Our intent is to promote leadership roles and growth for PAs within the KP system and ensure consistency among the roles across various locations.

Your continued support and solidarity, shown through the photos of members wearing UNAC/UHCP gear on Blue Thursdays, means the world to us. Let's keep those photos coming to your Bargaining Action Team (BAT) member!

These actions showcase our collective strength and voice, both of which are crucial during the bargaining process.
